Gatsby 450x900 Mirror With LED Light, Demister And Gunmetal Aluminium Frame – G4590D-GM

There is something quite special about the backlit Gatsby series. The round edges defy the typical shaping of a mirror, and the backlit aura of light that it emits gives the mirror a sense of exclusivity. With the practical luxury of an in-built demister that defogs the mirror after a hot shower, there is something truly spectacular about this innovative design.
