

Product Specification Sheet

NX ORLI HydroSense Twin Shower Matte Black - 607-6500-10

With its soft square shower design, The NX ORLI range has a great assertive approach and will make a great statement piece in your bathroom. With HydroSense, water is transformed. This patent pending technology accelerates water flow tenfold, resulting in more even coverage, improved performance in low pressure environments and reduced debris collection within the shower fitting. The internal engineering ensures a fully immersive shower experience and the sense of total escape.
