

Product Specification Sheet

Sphere 800 Round Back Lit Mirror– R60043

The stylish and slick Sphere series flawlessly depicts how congruent contemporary and classic can be. The backlit LEDs emit the light outwards creating a soft ambiance around the mirror, which as a result adds space and depth to the wall. Whilst it is minimal, it above all brings an elegance to contemporary bathrooms and a sleek sophistication to bedrooms. The light is activated by a touch switch that illuminates when the mirror is off.
