**Note:** All height dimensions to underside of pan, make allowance for bedding when installing.

**Bedding:** The pan should be fixed to the floor with a sand cement mixture of 3:1 to a depth of 60mm. Do not use lime or fast drying cement in the bedding mixture. When bedded the back of the foot of the pan should be approximately 10mm above the finished floor.

**Bracket fixing:** The pan should be bedded with an acetic cured silicone sealant and fixed with the D82 Fixing Brackets supplied.
