Zip Filter Tap

Instant Ambient Filtered Drinking Water
Under-Sink Filtered Water

Instant Boiling Water

Description

- Fresh, filtered ambient# water at the touch of the lever.
- More cost effective than buying bottled water.
- Chrome plate brass tap head with quarter turn action lever and 360° swivel spout.
- Choice of Sub-micron or 5 micron filtration to NSF/ANSI 42 and/or 53 industry standard.
- Quick and easy DIY filter change system.
- Filter maximum flow rate is 2 litres per minute.
- Fully encapsulated easy-change carbon filter.
- Pressure limiting valve equipped to protect filter against extreme water pressure.

Installation

A. Location
Tap should be installed at the rear of a sink, on a flat surface to dispense into the sink.
A 25mm diameter cut-out is required for fitting tap.
Filter should be mounted under the sink on the cupboard wall close to the tap and accessible for filter cartridge changes.

C. Plumbing
To be installed by a qualified tradesperson in accordance with manufacturer's instructions and AS/NZS 3500 plumbing regulations.
Water connections 12.7mm BSP.
Designed for direct connection to a potable cold water supply with minimum pressure of 70kPa; maximum 700kPa.

D. Caution
In some hard water areas where mineral scale accumulation may be a problem, consideration should be given to the maintenance required. A suitable form of water treatment may be necessary.

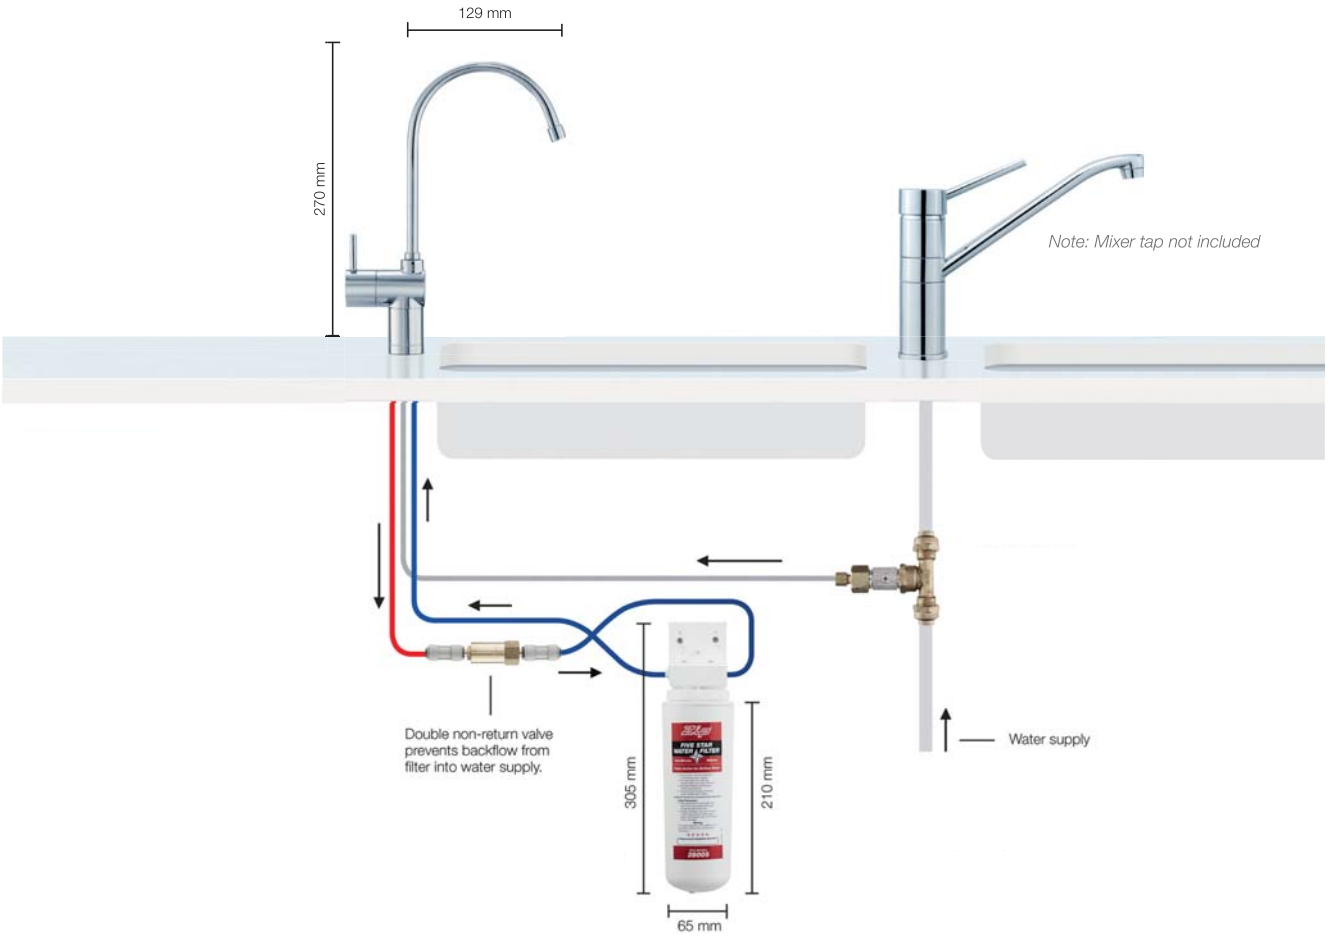
E. Accessories
99015 – Disposable cup system
28002 – 5 micron replacement filter
28005 – Sub-micron replacement filter

**Refer to Zip Filter Tap Brochure for more information*

 # Ambient temperature will vary depending on surrounding temperature of the filter

Extended Warranty

1 year parts and labour warranty.



Product Selection Chart

Product Details	Order code Sub Micron	Order Code 5 micron**
Filter Tap	59007	52007

***In some areas of Australia, like Melbourne, Sub micron filters may become congested faster and need more frequent replacement. 5 micron may be a more suitable choice for longevity.*
